**If Winter Weather is in the forecast, please limit/adjust on-street parking to allow for the snowplow!**

**What six things do healthy communities have in common?** They identify the assets that offer the best opportunities for growth and develop strategies to support them; engage all stakeholders to develop a vision for the community's future; take advantage of outside funding; create incentives for redevelopment and encourage investment in the community; encourage cooperation within the community and across the region; and support a clean and healthy environment. Get involved and see how you can be a part of making and supporting successful tactics for a healthier McLeansboro.
